Skills

SIEM & Monitoring: Splunk, Wazuh, Sysmon, Windows Event Logs, Log Analysis, Alert Triage

Security Tools: Burp Suite, Wireshark, Nmap, Metasploit, Kali Linux

Operating Systems: Windows 10/11, Windows Server 2019/2022, Ubuntu Linux

Identity & Administration: Active Directory, Group Policy, DNS, User & Group Management

Virtualization & Platforms: VMWare Workstation, Docker

Certifications

CompTIA Security+

September 2025

TestOut Network Pro

April 2023

Personal Projects

Splunk Windows Event Monitoring Lab

May 2026

- Configured Splunk Enterprise and Universal Forwarder to collect Windows Security Event Logs from Windows Server 2022
- Monitored authentication events including Event IDs 4624 and 4625
- Created searches and dashboards to analyze login activity and detect suspicious behavior
- Investigated generated events to validate visibility and log collection

Active Directory Security Homelab

May 2026

- Deployed Windows Server 2022 domain controller and Windows 11 client in VMware
- Configured Active Directory, DNS, Organizational Units, users, and security groups
- Implemented Group Policy Objects to manage access controls and user restrictions
- Tested authentication, account management, and policy enforcement

Linux SSH Brute Force Detection Using Splunk

May 2026

- Built detections queries to identify SSH brute-force attempts against Ubuntu system
- Parsed authentication logs and created alerting thresholds based on failed login activity
- Performed investigation and triage of attack simulations using Splunk searches

Endpoint Visibility with Sysmon

June 2026

- Deployed Sysmon to generate enhanced Windows telemetry
- Forwarded security logs for centralized analysis
- Analyzed process creation and security events to improve endpoint visibility

Professional Experience

Operations Coordinator | Utica University

- Coordinated administrative and operational processes while maintaining accurate records and documentation
- Assisted students, faculty, and staff with technology-related and operational issues
- Managed multiple priorities in a fast-paced environment while meeting deadlines
- Communicated Professionally with internal and external stakeholders to support daily operations
- Maintained attention to detail when processing information and resolving issues

Education

Utica University | B.S. Cybersecurity

May 2026

Cumulative GPA: 3.69
